

Quality, Health, Safety and Environment Policy

Tenaris aims to achieve the highest standards of Quality, Health, Safety and Environment, incorporating the principles of sustainable development throughout its worldwide business.

Tenaris identifies the health and safety of its employees, contractors and visitors, the satisfaction of its customers, the protection of the environment and the development of the communities where it has its operations as integrated key drivers of its business; the entire organization is oriented towards achieving these goals openly and transparently.

Quality, Health, Safety and Environment management and risk assessment fundamentals are integrated in all business processes.

Management is responsible and accountable for achieving excellence in Quality, Health, Safety and Environmental performance for successful business results.

Tenaris is committed to training all its employees in the appropriate use of its Quality, Health, Safety and Environment management systems, strengthening its management through updating of professional and managerial skills, fostering diversity, encouraging the consultation and participation of workers in issues related to health and safety, emphasizing employee evaluation and motivation, and complying with the ethical principles established in its Code of Conduct.

Safety and Health are paramount

All injuries and work-related illnesses can and must be prevented.

We are committed to maintain safe and healthy workplaces and to promote wellbeing at work and a healthy lifestyle.

We ensure that everyone is accountable to act proactively to eliminate hazards, reduce risks and identify opportunities for improvement, and encourage an open communication with all our people and interested parties.

Quality is our main competitive advantage

We constantly seek for excellence in the quality of our products, services and processes.

The requirements of our customers must be consistently satisfied.

Differentiation is achieved through operational excellence, logistics efficiency and development of innovative and reliable technologies, processes, products, and services.

We are committed to developing a long-term sustainable business

Preventing pollution and minimizing the environmental impact of our operations and products, considering a life cycle perspective.

Reducing GHG emissions in our products and operations with the aim of reaching net zero as soon as technological and market conditions allow.

Using natural resources and energy efficiently, thus contributing to the circular economy.

Tenaris recognizes the importance of implementing this policy throughout its Quality, Health, Safety and Environment management systems, covering the entire supply chain from suppliers to customers, the proper and efficient use of its products and services in accordance with their agreed specifications. Tenaris commits to comply with applicable legal requirements and all other requirements relating to quality, health, safety and environment issues to which it subscribes.

Tenaris communicates this policy throughout its organization, trains its employees in the appropriate use of its Quality, Health, Safety and Environmental management systems and engages them in the regular setting, measuring and revision of objectives.

Tenaris undertakes to keep this policy updated, to implement and maintain its management system, and continuously improve its Quality, Health, Safety and Environment performance.
